See also the British-influenced quads and buildings of McGill University, founded in 1821. Then visit the Basilica of Notre-Dame de Montréal, a magnificent example of French- Canadian architecture that once hosted national separatist rallies and is the largest church in Canada.

The first milestone on any trip is watching students and adults who have never flown during their first take off. I usually film the new flyer's. By the time we get to the first stop they're strutting through the airport like seasoned travellers. It's fun watching that confidence being built as they learn to navigate through new experiences
